

Name: Becca Keefe

☘ School: University College Dublin, Ireland ☘

Date: 1st June - 1st July 2013

I came to Texas with no expectations. I had little or no idea where I was going, who I would be working with or where I would be staying. I have been here a little over a month now and the place has totally stolen my heart. The Lone Star state has given me more than I could ever have asked for; an outstanding veterinary clinic with some of the most professional people I have ever met, a brilliant outlook for my future career and a Southern welcome that has made me feel so at home in this gorgeous place. I have met people who have taken me into their homes, shown me how they live and given me an appreciation of what a vet's life in Texas is all about. I have loved every minute of it.

From a veterinary perspective, I have gained more than I ever thought possible on my externship! I will be forever grateful to the wonderful staff at Deason for their great teaching and endless patience with me - there was never a silly question or a wrong answer ⇒ SUCH a great way to learn.

I can't even begin to talk about my experiences but they began the first morning I arrived in Texas and continued right up to the end!
